Large Boiler

Needs Cleanup!

Some or all of the information is confusing, irrelevant or incomplete.

Please help polish this article if you are able.

This is a quick guide to get your Large Bronze/Steel/Titanium/Tungstensteel Boiler online. If you're having trouble getting it to form follow the layer by layer guide below.

Note <MATERIAL> tag below must be the same. You cannot mix and match. For example you would replace the <MATERIAL> tag with the proper material from the "Valid" lists below the shopping lists. Example: Large Bronze Boiler. Then all of your components must be bronze.

Shopping List

- 1x Large <MATERIAL> Boiler (Controller Block)
- 4x <MATERIAL> Firebox Casing
- 1x Maintenance Hatch
- 1x Input Bus (If using liquid fuel use a Input Hatch Instead)
- 1x Input Hatch
- 1x Muffler
- 3x <MATERIAL> Pipe Casing
- 32x <MATERIAL> Machine Casing

Layer by Layer Build Guide

Note: I've been shown that the output hatch (where the steam comes out) can be placed almost anywhere, however, note this guide is meant to get you a verified working boiler. Feel free to experiment from here.

Check Maintenance hatch and fix whatever problems it prompts you with after Boiler is fully built.
